O'Learys Fell Down in Last Match to the Students of Montpelier-Trenoweth Is the Star of the League.

The Intercity Bowling league closed last evening with a match between the O'Learys and Students at Daley's Mont-peller alleys. The Students captured two out of the three strings, it being the first game that the Students have

won from a Barre team.

A game was scheduled to have been played last evening between the Eagles and Capitals, but the Capitals failed to show up, thus forfeiting the game. In order not to give up the whole game, a match was arranged between two members of the Eagles, Averill and Dewey. Dewey won two out of the

It is expected that a meeting of the bowlers will be held soon to award the prizes. Trenoweth of the O'Learys has secured the most points in every de-pertment of the game, but it is im-possible for one person to take more than one prize according to the rules of the association. The men next behind Trenoweth are Daley and Donald Smith. The final standing of the teams is as follows: Eagles, Eurekas, O'Learys, Owls, Capitals and Students.

The scores of the match between the Students and O'Learys were as follows:

"Say, that's a pretty neat one, isn't it?" said a travelling man at one of the leading downtown hotels last night,

when it began raining. I had no umto the police took them both to a hospial. Each said that he had been out of the cheap hat window displays. In a jiffy I decided to get a chesp hat to wear in bad weather. In I walked, bought one of the hats and put it on, and asked to have the other one done up. I was going to work and I didn't want to carry it along with the store's advertisement on the outside of the paper. Neither did I want to give my own name at the store; so I gave a fictitious name, expecting to call for the hat next day to take it home. Well, sir do you know that I have not been able to think of that name to this day. I think it was Taylor, and I went to the store and asked for a package bearing that name; but there were always two or three packages, and the initials were asked. That dumfounded me. It also taught me a lesson in hat trading."-Pittaburg

BUILD ON ROCK BAIRD'S AIM

TALKS BACK Take Warning from the Man of Old-See That Your Foundation Is

We are all of us familiar with the parable of the man who builded upon the sand. No one now-a-days would think of putting up a house or a factory on anything but a solid foundation. Some of the "sky scrapers" of New York city are set on foundations of from thirty to fifty feet below the atreet.

Upon Intruder.

It is as important to build your health upon a solid foundation as anything else. Health is happiness and is the highest gift to mankind. Nature intended that we should all enjoy the full fruits of health, but our surroundings are sometimes such as to mar this ings are sometimes such as to mar this ecatatic condition.

ecstatic condition.

Those who are under baneful influences have to help Nature along. Don't make the mistake of taking medicines that are full of alcohol and narcotics. If your do you are building unon sand.

If your constitution is weakened, if your lungs are not strong, if your blood is thin, if you are subject to colds, take Magee's (Malt) Emulsion. It will build you up and make you strong. to any and every effeort which has in view the lessening of the deplorable results of a great existing evil, and the Anti-Treating League has, therefore, our most cordial support. While we do not agree with them that the treating habit is the "foremost factor in bringing men under the sway of drink," we do agree that by the abolishment of this timehonored custom the decrease in the number of glasses handed over the bar will be considerable and much ruin and misery averted. We do not forget, how-ever, that treating is only one of the conspicuous symptoms of the disease not the disease itself-far less its

The new movement is especially good in that it is educative. It is another blow at traditions; one more step, and a long one, toward freedom, not only from drunkenness but from drinking, and eventually from the traffic itself. The essence of the league's effectiveness," naively says a newspaper, "lies in the fact that it appeals to "lies in the fact that it appeals to men in a practical way, viz., through the pocketbook." It is through the pocketbook, likewise, that the drink traffic appeals year after year to the voter and to the nation. If it is money which "makes the treating habit go," it is also money which makes the "deadly upas tree" stay.

It is hardly to be supposed that the work of the Anti-Treating League will appeal to liquor sellers and ilquor manufacturers, and it remains to be seen what retalistive measures they will take. The newspapers while

A Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherrybark, Golden Seel root, Stone root and "Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, broneins!, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with we'll stomach, as in the early stages of comption, there can be no donbt that give rine acts as a valuable nutritive and alos the Golden Seal root, Stone root, Queen's root and Black Cherrybark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a beathy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, chronic coughs, bronchial and larryngeal troubles, and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the lingering coughs, or those of long standing, even when accompanied by bleeding from hings, that it has performed its most marvelous entres.
